#### Simple to use:

- Clamp the fabric onto the test pot, flick the switch and set the pressure with the set knob.
- No need to worry about air bubbles, the specially designed Test Pot automatically removes trapped air. The gauge can be read as either imperial (pound-force per square inch) or in metric (Bar/ kilo-Pascal)

#### Quick:

- Once the test piece is clamped the Ardmel Hydrostatic Head Tester Mk 2 can reach 10 psi (0.7 bar/70 kPa) or set pressure in under 10 seconds.

#### Portable:

- The UNIQUE power supply options of mains supply or battery makes the Hydrostatic Head Tester Mk2 as portable as you need.

#### Specification:

- Pressure gauge: – Standard 0-14 lb (100 kPa / 1 bar) ; Optional 0-3 ½ lb
- Net weight: 12 kg/26 lb
- Power supply: Standard 230 V AC ; Options of 12 V DC battery, 12 V DC rechargeable cell (requires additional charger)
- Test Pot: Standard 3 inch (76 mm) ; Options of 1 ½ inch, 4 ½ inch B.S. Size (114mm)

All dimensions are approximate
