

The Ardmel Hydrostatic Head Tester Mk 2

Simple to use:

Clamp the fabric onto the Test Pot, Flick the switch and set the pressure with the set knob.

No need to worry about air bubbles, the specially designed Test Pot automatically removes trapped air. The gauge can be read as either imperial (pounds pressure) or metric (Bar/kilo Pascal)

Quick:

Once the test piece is clamped the Ardmel Hydrostatic Head Tester Mk 2 can reach 10 pounds (0.7 Bar/700mm) or set pressure in under 10 seconds.

Portable:

The UNIQUE power supply options of mains supply or battery or rechargeable battery makes the Hydrostatic Head Tester Mk 2 as portable as you need.

Specification:

Pressure gauge - Standard 0-14lb. (100kPa. 1 bar) :
Optional 0-3 1/2 lb.

Net weight - 12kg/26lb
