

# PS-300B

Sewing data programming software

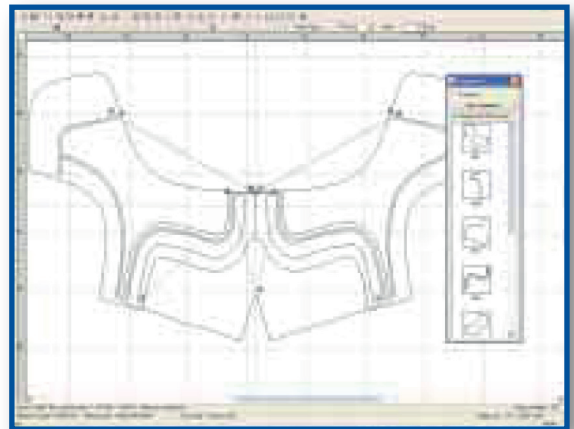

This is a software package that lets you create, edit and modify sewing patterns for electronic sewing machines using a personal computer.

- Product value can be increased by creating your original sewing patterns.
- Sewing pattern data can be easily modified, which reduces time taken for resizing and correcting.
- Existing sewing pattern data for previous models and external data can also be used.

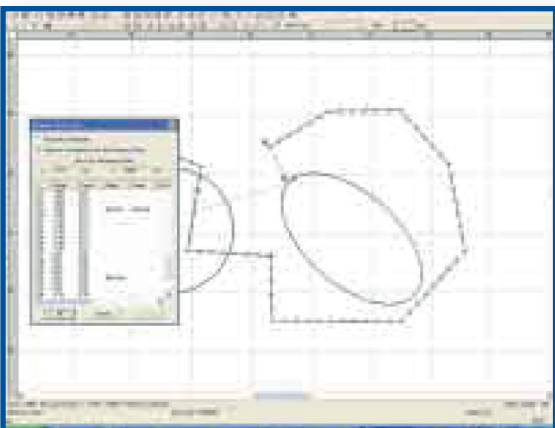

## Easily creates and edits sewing data

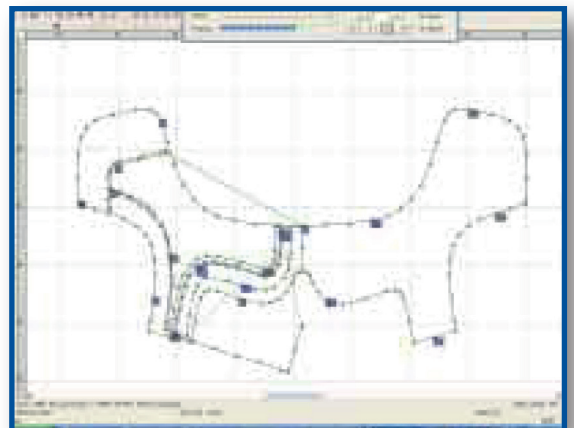

An image is displayed on the screen. You can create data while checking the image. You can enlarge and edit a part of the data while checking the entire design.

The order of sewing data to be sewn can be easily checked and changed.

Sewing data can be accurately and easily created and modified by a batch entry function of numeric data (unit: mm).

With a sewing simulating function, sewing data can also be checked stitch by stitch.

## Specifications Models and Media for PS-300B

### Bar Tack machines

KE-430HS/HX

### Button Sewing machine

BE-438HS/HX

### Zigzag machines

Z-8550A

Z-8560A

### Button Hole machine

HE-800B

### Programmable Electronic Pattern Sewing machines

BAS-311HN

BAS-326H

BAS-326H-484

BAS-326H-484SF

BAS-341H

BAS-342H

BAS-360H/365H

BAS-370H/375H

## Hardware and System Requirements for PS-300B

Device	Recommended	Requirement
CPU	Pentium 4	Celeron
Clock frequency	3 GHz	500MHz
Memory	512MB	256MB
Input/Output device	3.5 FDD	3.5 FDD (1.44M)
	CD-ROM drive	CD-ROM drive
Hard disk	Free space of 30MB or more	Free space of 30MB or more
Display performance	1024 768dot, 24bit	1024 ~768dot, 16bit
Input & Output Port	USB port (Required for reading /writing CF card)	USB port
OS	Windows XP	
Output Device	FDD (2HD), CF card reader /writer	

Windows is a registered trademark of Microsoft Corporation in the United States and/or other countries.

**Main function:** Create, change, edit, set, file input/output, data input/output

**Condition of data creation:** Image area 1600mm 1600mm, Minimum pitch 0.05mm,

Max. No. of stitches 100,000 stitches

**Language:** English, Chinese, Japanese

Setting ranges vary depending on model that data is output to.

### RoHS Compliant

342H XL is compliant with the RoHS Directive (the restriction of the use of certain hazardous substances in electrical and electronic equipment) which came into effect in the EU in July 2006.

Brother has established voluntary environmental standards for products and created the "Brother Green Label". BAS-342H XL is certified as an environment-conscious sewing machine according to the "Brother Green Label" standard.

Please read instruction manual before using the machine for safety operation. -Product specifications are subject to change for improvement without notice. -Photographs are for illustration purpose. They may not represent actual operating conditions and may display optional parts.
